Art Unit: 3634

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,5,6,7,8,10,11 are rejected under 35 U.S.C. 102(b) as being anticipated by Kuipers '606.

U.S. Patent      Apr. 6, 1999      Sheet 2 of 3      5,890,606

Kuipers teaches a frame device for supporting batteries and having channel support members 222. Note also Vertical column members 221 formed of sheet material, shelves 220 and web members with openings therein best seen in Figure 2 above.

Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
